# CARECONNECT

## INTEGRATE PANIC DEVICES TO EMERGENCY COMMUNICATIONS

POWERED BY:

CARECONNECT

Trauma Center

■ **BUILT FOR HEALTHCARE ENVIRONMENTS**

CareConnect integrates security technologies with healthcare workflows, allowing hospitals and care facilities to enhance patient safety while supporting clinical operations.

■ **DESIGNED WITH PRIVACY AND COMPLIANCE IN MIND**

Healthcare environments require careful handling of sensitive data. CareConnect is designed to integrate security technologies while supporting privacy standards and regulatory compliance.

■ **CONNECTING SECURITY WITH CARE SYSTEMS**

By integrating with systems such as nurse call, infant protection, patient monitoring, and EHR platforms, CareConnect helps security and care teams work from a shared operational picture.

■ **SUPPORTING COMPLEX HEALTHCARE FACILITIES**

From hospitals to outpatient clinics, CareConnect is designed to support large healthcare campuses where safety, operations, and patient care intersect.

■ **FASTER RESPONSE TO PATIENT SAFETY EVENTS**

When a patient safety alert occurs, CareConnect can link that event with video and security systems, helping staff verify situations quickly and respond appropriately.
