SECURITY
A BEARCOM COMPANY

CONSTRUCTION SITES WEREN'T BUILT FOR SECURITY OR COMMUNICATION

- No infrastructure on day one
- Multiple contractors, zero coordination
- Security risks increase as investment grows
- Leadership needs visibility without being onsite

SOLUTIONS WITH REAL CONSTRUCTION CHALLENGES IN MIND

- Secure Encrypted Communication
- Monitor progress remotely
- Eliminate theft & trespassing with automated audio & lighting responses
- Full control of lost or stolen radios
- Integrated radio, surveillance, and access control systems

THERE'S A BETTER WAY TO RUN A JOBSITE

What if your jobsite could be fully connected, monitored, and controlled before the first wall goes up?

A FULLY CONNECTED JOBSITE DELIVERED AS A SERVICE

EVERYTHING YOU NEED. NOTHING YOU DON'T.

*We provide two-way radio communication, security,
and monitoring as a unified rental solution.
All designed specifically for construction environments.*

SEE EVERYTHING

- Live jobsite visibility from anywhere
- Progress tracking for stakeholders
- UL-listed video monitoring options available

COMMUNICATE

- Mobile Motorola Capacity Plus radio systems
- Managed fleets with remote disable capability
- Reliable coverage across the entire site
- Site wide two-way radio notification.

PROTECT

- Intelligent mobile surveillance
- Proactive detection — not just recording
- Fence line + after-hours monitoring

CONNECT EVERYTHING

- Mobile private LTE/5G trailers
- Provides secure, private, wireless data connection
- WiFi or private LTE/5G native devices.

FLEXIBLE ENGAGEMENT OPTIONS

- Short-term and long-term rentals
- Managed services (we handle your radio fleet + monitoring)

WHY BEARCOM + STONE SECURITY

- National leader in critical communications + security integration
- Deep expertise in data center and enterprise environments
- Proven ability to deploy in zero-infrastructure environments
- Single partner for radios, video, access, data networks, and automation
